

SANITARY CONDITIONS OF CITY EXCELLENT

Dr. Whitlock Submits Annual Report—Declares Year Has Witnessed Marked Improvement—Advises Extension of Sewer and Water Services.

The annual report of the city medical health officer deals exhaustively with the work of this important branch of the city's administration. It is as follows:

Measles. The Commissioner.

Measles.—I have the honor to submit to you the annual report of the health department for the year ending December 31st, 1910.

It gives me pleasure to state that for the last year there has been a marked improvement in the right direction and that the sanitary condition of the city generally is much better than in the year 1909.

However, new regulations about the improvement of the water supply are to be carried out successfully with the aid of the city council and the city engineer, as a result of the very rapid development of the city in all directions.

Extensions of our water and sewerage systems will be carried out as rapidly as possible and to an extent on which the city council will permit. But more important than this, the city council has been able to make the water supply more abundant than ever before. This has been accomplished by the city council's decision to purchase the water rights of the city of Edmonton, which will be carried out as rapidly as possible.

The city council has also decided to purchase the water rights of the city of Edmonton, which will be carried out as rapidly as possible. This will result in the city of Edmonton having a water supply which will be carried out as rapidly as possible. This will result in the city of Edmonton having a water supply which will be carried out as rapidly as possible.

Report of the Health Inspector. During the year a total of 231 patients were admitted to the hospital. The total number of patients admitted to the hospital was 231.

During the year a total of 231 patients were admitted to the hospital. The total number of patients admitted to the hospital was 231. This was a marked improvement over the year 1909, when the total number of patients admitted to the hospital was 187.

No Alum No Lime Phosphate

"Alum in baking powder is dangerous and also is prohibited."

—Prof. Schneider, State Univ. Mo.

As a protection and a guarantee against alum, use

CREAM BAKING POWDER

It makes home baking easy and gives nicer, better and cleaner food than the "ready-made." There is no baking powder or preparation like it or equal to it for quickly and perfectly making the delicate hot biscuits, hot bread, muffin, cake and pastry.

REVENUE REPORT FOR 1910.
On March 15th, 1910, the health department took over the scavenging of the city which previously had been done by contract. The results have been very satisfactory and the cost has been reduced from \$11,000 per year to \$10,125 per year. The revenue for the year has been \$10,125. The revenue for the year has been \$10,125.

The Best Baker in Canada

A good oven is the housekeeper's delight. A poor one is the despair of her life. That's why we want to tell you about this Chancellor.

A special divided floor makes the oven a perfect baker. There is not a range in the country can beat it.

Baking day instead of being a trial and a disappointment is a pleasure, a satisfaction.

Come in the store when you've got down town and let us explain to you just how this flour distributor can save you the whole oven. Bakes in just as well as back—under crust as well as upper.

The GURNEY OXFORD STEEL TOP

means a marked saving in fuel, and better baking results. The Chancellor not only does its work better but at less cost than other ranges.

We can demonstrate to you the whole superior Chancellor principle of economy and efficiency in ten minutes.

Isn't it worth that much of your time right now?

The Chancellor is made for either coal or wood. Other Gurney-Oxford designs of every sort, for every purpose, and all kinds of fuel, on display on our floor.

SPECIAL DEMONSTRATION NOW.

THE Capitol Beer vs. Budweiser

We beg to inform our many patrons that we are using a temporary label for our "Capitol" Beer as an injunction has been granted by the courts restraining us from using our original "Capitol" label pending our law suit with the Anheuser-Busch Brewing Association, of St. Louis, Mo. The quality of "Capitol" however will be just the same, or better if we can make it so; and judging from the demand we are sure that our patrons know from experience that it IS THE BEER, and NOT THE LABEL, that has made "Capitol" SO WIDELY POPULAR.

THE Edmonton Brewing and Malting Co. LIMITED

EDMONTON PHONE 1428

LIQUID CURES EZEMA WHERE SALAES FAIL

In regard to skin diseases, medical authorities are now agreed that the best remedy is to use a good salve, and this encourages them to multiply. A true cure for all skin diseases can be brought about only by the use of the salve which is the form of a salve.

WASH THE GERMS OUT.

A simple wash. A compound of Oil of Wintergreen, Thymol, and other ingredients as combined in the D.D.D. Prescription. This prescription to the disease germs and destroys them, then soothes and heals the skin as nothing else has ever done.

MCCLELLAN & BALFOUR

Phonograph 1428; Merchants 583 Third St., 2nd and Stony Plain Road

NOTICE is hereby given that application for a patent for a new and improved method of making a certain article of manufacture has been made by the undersigned at the Patent Office of the Dominion of Canada at Ottawa, Ontario, on the 21st day of November, 1910, in the name of the Canadian Northern Railway Company, Limited, and that the undersigned is desirous of obtaining a patent for the same.

THIRD DAY OF JANUARY, 1911.

For the purpose of giving notice to the public of the above, the undersigned has caused this notice to be published in the Edmonton Daily Bulletin, a newspaper published in the City of Edmonton, Alberta, Canada, on the 21st day of November, 1910, and on the 21st day of December, 1910, and on the 21st day of January, 1911, and on the 21st day of February, 1911, and on the 21st day of March, 1911, and on the 21st day of April, 1911, and on the 21st day of May, 1911, and on the 21st day of June, 1911, and on the 21st day of July, 1911, and on the 21st day of August, 1911, and on the 21st day of September, 1911, and on the 21st day of October, 1911, and on the 21st day of November, 1911, and on the 21st day of December, 1911, and on the 21st day of January, 1912, and on the 21st day of February, 1912, and on the 21st day of March, 1912, and on the 21st day of April, 1912, and on the 21st day of May, 1912, and on the 21st day of June, 1912, and on the 21st day of July, 1912, and on the 21st day of August, 1912, and on the 21st day of September, 1912, and on the 21st day of October, 1912, and on the 21st day of November, 1912, and on the 21st day of December, 1912, and on the 21st day of January, 1913, and on the 21st day of February, 1913, and on the 21st day of March, 1913, and on the 21st day of April, 1913, and on the 21st day of May, 1913, and on the 21st day of June, 1913, and on the 21st day of July, 1913, and on the 21st day of August, 1913, and on the 21st day of September, 1913, and on the 21st day of October, 1913, and on the 21st day of November, 1913, and on the 21st day of December, 1913, and on the 21st day of January, 1914, and on the 21st day of February, 1914, and on the 21st day of March, 1914, and on the 21st day of April, 1914, and on the 21st day of May, 1914, and on the 21st day of June, 1914, and on the 21st day of July, 1914, and on the 21st day of August, 1914, and on the 21st day of September, 1914, and on the 21st day of October, 1914, and on the 21st day of November, 1914, and on the 21st day of December, 1914, and on the 21st day of January, 1915, and on the 21st day of February, 1915, and on the 21st day of March, 1915, and on the 21st day of April, 1915, and on the 21st day of May, 1915, and on the 21st day of June, 1915, and on the 21st day of July, 1915, and on the 21st day of August, 1915, and on the 21st day of September, 1915, and on the 21st day of October, 1915, and on the 21st day of November, 1915, and on the 21st day of December, 1915, and on the 21st day of January, 1916, and on the 21st day of THE NEWS OF SPORT

TORONTO UNIVERSITY
AGAIN THE CHAMPIONS

Defeated Hamilton Tigers in the
University City by Score of 16 to 7.
Record Grand Attended Game.
Varsity Superior in Every Department
of Game.

Hamilton, Nov. 26.—Once more the Varsity Royal Furries are supreme in Canadian football, unscathed by a single defeat. The score was 16 to 7, and the close, it was a great game, and the game was won and lost on its merits. It was a personal triumph for coach Harry Griffith, who, by the way, is a Hamilton man. Varsity were at it at the drop of the hat, and as they had done with Ottawa a year ago, they put the Tigers over the ropes at the start.

From then to the time they had the best of the play until just after the opening of the second half, when Tigers came with a rush, and for a time looked dangerous. It lasted throughout the third quarter, but more than was expected, but after that till toward the close was a precaution, and Varsity was playing water to Hamilton's sea. The quarter Tigers had no time for a time, but the Varsity became so fast, and found at quarters as quick in his service, that as a result there was time to spare.

Gill, Maynard and Dixon put up a wonderful line of football and all the fumbles were behind the Tiger line. Every man was playing the game for all that was in him. Simpson for the Tigers did wonderful service, but fumbled at times, while Moore and Kid Smith were two sure kickers.

Hamilton Against Toronto.
Hamilton, Nov. 26.—Never in the history of Canadian football have such scenes been witnessed as those which preceded and culminated in the slaying victory of Varsity over the Tigers at Hamilton on Saturday last.

It was not much the game of Varsity against Tigers at Toronto against Hamilton. The Tigers were on the defensive throughout. Varsity piled up the final crushing score of 16 to 7. It is estimated \$75,000 changed hands in the bet, the highest for any year. The gate returned \$2,146 and the attendance 6,113, the largest in the history of the Canadian game.

Varsity led all the way, the score by quarters being 5 to 5, 9 to 0, 11 to 2 and 16 to 7.

The Tigers made a lucky kick but were outwitted and their only consolation is that they played a better game than Ottawa did last year.

Varsity were superb in passing the ball and their halves did wonderful work despite the slippery nature of the field. In the kicking exchanges also Varsity proved more than a match for their rivals.

Varsity Held Tigers' Line.
The forward line Hamilton so much boasted of was not equal to the daunting play of the Varsity forwards. The day was dark and damp and the grounds sticky and wet, but the crowd was not affected by the depressing weather conditions, which holds record numerically and was between 6,000 and 7,000.

Both teams roared and played in full strength through the game, and it was the playing crowd. Hamilton had two huge hurrahs and a huge hand on Varsity was headed by the band of the 4th Highlanders. The teams

BRITISH LIGHTWEIGHT
KNOCKED OUT NELSON

Overman Defeated the Dane, Scoring
Knockout in the Eleventh
Round—Burmington Box for the
Better of the Contest Throughout.

San Francisco, Nov. 27.—Battling Nelson has lost his greatest asset. He is the Burmese Dane no longer. Overman did not for Nelson in the 11th round at the Pacific Pavilion this afternoon. The end was not unexpected at that, for while on the receiving end of a volley of hooks and uppercuts in the ninth round Nelson showed signs of going to pieces. He worried through the tenth round all right, but his opponent was hitting him time and time again, and the opportunity for settling punches should present itself. He all but shot a straight left to the round for a similar reason. The opportunity finally came, and Nelson went down flat length on his back from a right hand crack on the chin.

The Fight by Rounds.
Round 1.—They rushed and fought shoulder to shoulder. Nelson scored first with a clean left hook to the jaw. They battled each other about, Nelson showing rights and lefts in the face. It was alive and take at close quarters. The round ended with both even.

Round 2.—Moran drove right in the ribs and followed it with several stiff and left short-arm waves to the face and head. Nelson, for the price, but Moran met him with his own right and small right hand. At the close, Moran won a powerful right to the wind and then shot a straight left to the face.

Round 3.—Nelson forced the British against the ropes, but the latter avoided the batter's onslaught. A right minor rally followed, both landing savagely to the head and face. Moran shot a wicked right to the nose and scored first blood. Moran played for the face and Nelson went to his corner spitting blood. Moran's round.

Round 4.—Moran continued to attack and outplayed his opponent, striking back and meeting Nelson with straight lefts and rights to the nose and to the face. The round ended with both even.

Round 5.—Moran scored immediately with a straight right to the jaw. The Birmingham lad then planted two solid rights to the jaw. Nelson rallied and forced his man from one end of the ring to the other, landing with hard right and left blows to the head. Moran, evened up, raining short arm lefts and ending the face. Horner even.

Round 6.—Nelson forced the British at close quarters. Nelson, hooked his right in the stomach. He forced the British, but around the ring, but the latter met each rush with straight left and right blows to the face. Moran, upset with his left to the jaw and a moment later sent the same blow to the face. Moran was scoring clearly, and had the better of the round.

Round 7.—Nelson forced the fight, landing left and right on the face. They battled back and forth, Moran, if anything, having the better of the exchange. Nelson scored a quick succession of rights in quick succession to the face. Moran's round.

Round 8.—After half a minute of desultory exchange, Nelson forced his man to break ground by showing in several rights and lefts to the body

and face. He went right after his man, but Moran scored constantly with well timed right and left hooks to the face, one of which all but closed Nelson's eyes. Moran's round.

Round 9.—Nelson opened the round full of fight. A short right swing reached the British jaw and soon afterwards a straight left found the mark. The fight continued to fight close. Moran sending in straight rights and lefts to the face that carried him of power behind them. Again Moran had the better of the round.

Round 10.—The round close, none ended, during which both landed some telling punches. The round was rather tame, neither man having an advantage.

Round 11.—Neither man appeared to be in distress at this stage of the contest. Then Moran suddenly shot a vicious right to the jaw and Nelson went down for the count, with blood streaming from his mouth.

Three times more did the Englishman humiliate the ex-champion by flooring him with right right smashes to the head.

The British, for the fifth time, tripped the now defeated brawler with a powerful right. The referee indicated that Nelson was counted out before he could arise, from his haunches.

When referee Selig declared him the victor, Moran turned a backslider into the arms of his seconds and dashed from the ring without a mark to indicate that he had been in a fight.

"I always knew I could turn the trick," he later declared. "And now I feel proud to have been the first to win a fight without a mark to indicate that he had been in a fight."

The referee's claim had been counted out prematurely. "It took but three seconds for the round to end," he said, "and I believe I would have won at that time."

It is estimated that 1,000 persons witnessed the fight, and Professor Cuthbert said the receipts would approximate \$12,000.

WRESTLING.
Montreal, Nov. 25.—Jim Lemm, the Swiss wrestler, in the latest arrival of the heavyweight brigade, daily practicing tricks, shows from Europe. Lemm has been here before, but he has come back again. Lemm, like all the rest of the big fellows, Hicken-schmidt, Zerkow and the rest, wants to meet Gutch.

When all the wrestlers who want to meet Gutch assemble together they must look a pretty strong bunch. However, Lemm doesn't want to go in to meet Gutch all at once, even if Gutch were willing. The Swiss is willing to go through a few preliminary contests, and as a starter wants to challenge the winner of the Hicken-schmidt-Zerkow match.

PETROLIA BEAT HAMILTON.
Petrolia, Ont., Nov. 25.—Today in the first prize of the home series for the Junior O.P.E.U. championship of Canada, Petrolia defeated the Hamilton Alerts by 13 to 4 in the presence of 1,400 people.

New York, Nov. 26.—Baseball fans are today discussing a report that while in Chicago attending the session of the minor leagues John J. McGraw arranged a trade whereby Johnny Kling and Joe Tinker will be sent to the Athletics next season. According to the report McGraw has agreed to give two players, whose identity has not yet been ascertained, and a substantial bonus of cash for the pair.

RAILWAY EXTENSION

IN THE NORTH

The disappearance of the A. & G. W. company does not, of course, extinguish the hope of railway construction into the northern portion of the Province. The most sanguine champions of that company have not claimed that it was the only railway company in the country, nor the only one which might be expected to direct its enterprise toward the opening up of the great north. The fate of Northern Alberta did not rest upon the narrow and unstable basis of the resources and resources of the A. & G. W. company.

There are at least three other railway companies in this country, any one of which building more miles of railway in each summer than the A. & G. W. company ever undertook to build or contemplated building. The present rivalry exists between these companies for the occupation of new territory. Whether the territory in question be settled or not is of little importance, so long as its capabilities of development are reasonably established. It is not possible for companies have already projected lines into the Peace River country, and one of them is nearing the completion of a line to Athabasca Landing. The third is spending a million and a half dollars in building the Peace River railway at Edmonton, at least a temporary good reason for supposing that it, too, might have a share in equipping the northern districts with railway facilities. To contend that the country into which the A. & G. W. company proposed to build has no reasonable chance of attracting one or other of these companies is to put down the resources of that section as far below those of the normal western district. It is a quite safe assumption that if the Port Mc Murray country is as good as everyone hopes and as many people believe, one or other of these companies will run a line into it without undue delay. To say that they will not do so is simply to discredit the district as not being good enough to attract any one of these energetic and resourceful competitors engaged in one of the greatest railway races the continent has witnessed.

When the disappearance of the A. & G. W. company does, it is clear the way for the opening up of the Port Mc Murray country and the other northern districts on the same basis and under the same conditions as have governed railway extension elsewhere in the West. The largest media with that company proclaimed to the world that the Port Mc Murray district was one as difficult for railway construction as an abnormally large guarantee must be given to secure a road into it, and one of those problematic possibilities that men would not be wise in lending money to. The price at least five per cent. interest, even when the Province went away for the interest both on the part interest. And as the line to Port Mc Murray was the first line to the far north projected under provincial guarantee, the assumption of the outsider must be that that was the one district in the northern country which gave the largest promise of development and the best security for the risk undertaken by the Province. If an abnormally large guarantee was an unusually high rate of interest were justified or necessary in the case of a line to Port Mc Murray, the plain conclusion of the railway financier was that a similar guarantee and similar rate of interest should be demanded for building a road into any other part of the north. The imposition of inferiority which the amount of the guarantee and the rate of interest placed upon the Port Mc Murray district, was placed equally upon every other district in the north. It was admitted by this contract made with this company that any company proposing to build to the Peace River districts would be justified in demanding a heavy loan guarantee, and that any one asked to provide the money for such road would be justified in demanding a high rate of interest for its use and for the risk thereof.

An instance is not wanting that these admissions told against the construction of railways toward the north. It is a matter of common knowledge that the C.N.R. is "loafing" in the extension of the line from Morrisville to Athabasca Landing. After the A. & G. W. company was announced, and it is an open secret that the cause of the delay was that a line only thirty miles distant was guaranteed for \$7,000 per mile more than the C.N.R. was to receive. It is inadvisable that had this been known, it might have been impossible to get any company to build into the north at less than \$25,000 per mile guarantee, and impossible to get any road into the north at less than \$25,000 per mile guarantee.

PAYS FINE TRIBUTE TO JAPANESE CHARACTER

Rev. H. C. Armstrong, in McDougall Methodist Church, gives interesting address on people of Japan. Many examples of nobility in individual character.

"Some of us are unconsciously hard on the heathen people," said the Rev. H. C. Armstrong, a returned missionary from Japan. In an eloquent sermon delivered in the McDougall Methodist church last evening, the speaker as though God had somehow revealed to them all the character of the Japanese. This image was to be a true representation of that being, and he hoped that his attitude would be understood and that he would be forgiven.

The Emperor of Japan at the time of the war with Russia addressed his soldiers in these words: "The foe that strikes you for your country's sake strikes with all your might, but when you fight forget not still to love him."

There were people who did not care for the Japanese, who were of them as a dishonored and treacherous. He asserted that it was not in Japan alone that dishonest and treacherous men were to be found.

The modern progress of Japan was by no means the mushroom growth which it was commonly supposed to be. Behind it was a gradual process in life and in education of the people in which there was much to be admired.

A certain Japanese mother had a son who became a Roman Catholic priest. He wanted to effect her conversion he sent her a present of letters which he had written to her. He said, "I have no need of the artificial favors of Rome. I am as a tall reed blown by the wind which seeks to break me down. I will stand as a tree blowing and leave me alone."

It was the practice with the Japanese upon the anniversary of the death of a relative to go on a pilgrimage and to place there a candle and read, accompanying them with a prayer. These were missionaries who would go to them and tell them that this was folly, in reality they were decorating the grave as if it were of the dead, and there was some truth in the saying of the Chinaman, who when asked "When do you expect the dead to rise and eat out your children?" replied, "When the dead rise to smell your flowers."

In every shrine there was a mirror before which the worshippers bowed in worship. The mirror was said to be the one of a mirror given to the ancient ancestor of Japan by his successor to whom he said: "This mirror is my soul. When you see it, think you are before me and love."

Dr. Williams' Pink Pills for Pale People. The sale of the property on which Dr. Williams' Pink Pills for Pale People business has been conducted, on the south side of Jasper, was sold to the owner, Jas. Brown, adding another to the list of sales. Jasper Avenue property which have been made during the last few days, and giving further evidence of activity in the city. The property had a frontage of 21 feet. The name of the property has not yet been decided.

A Maker of Organs. In a certain town there was a man in whom he was interested. They had an organ there which was badly in need of repair. They took it to him, who was a clever mechanic. He had no knowledge of organs, but, with confidence which was characteristic of the Japanese, declared that he could mend it. Having mended it, he said, "What I can make."

He had now an organ factory which exported organs even to San Francisco. Above the door of his shop's house was a sign which read: "The organ maker who mended the organ which he could not mend."

These Mr. Armstrong added many other instances of lofty ideals held by people of the Japanese though not practiced by all. If they did not accept Christianity as they had accepted Western civilization it was because Christ was not lifted up in the crucifixion which claimed the name of Christ. It would be well for us to ask what were they worthy to be civilized.

More Drunkenness in the West. I believe there is more profanity and more drunkenness in the West than in Japan. I have seen in many Eastern countries.

Mr. Armstrong closed with a eloquent appeal to Christians to live in a manner worthy of their profession. In the absence of such men, the Rev. J. E. Hughes, who was in charge of the service was conducted by Dr. H. H. H.

SAMUEL GOMPERS IS RE-ELECTED PRESIDENT. St. Louis, Miss., Nov. 26.—Samuel Gompers, late 76, was re-elected president of the American Federation of Labor, of which he has been president since 1902.

Do You Have Headache? PRINIP'S PAIN EXPELLER. TAKE ONE OF THESE TABLETS FOR HEADACHE, NEURALGIA, MIGRAINE, PAIN, COLIC, ETC.

My first experience with Dr. Miles' Anti-Pain Pills was a sample package handed me. They relieved the pain so promptly that I have never been without them since. I have given them to many friends when they had headache and they never failed to relieve them. I have suffered with neuralgia in my head, and the first one I took relieved me. They have cured me of neuralgia. I would not be without them."

BAWLIF HAS GAS AND COAL AND A SPLENDID DISTRICT

A Young Town on the Canadian Pacific Railway, 12 Miles East of Wetaskinaw—The Bawlf Coal Fields Developing Extensively—Good Cash Market for All the Farmer Has to Sell.

Bulletin Staff Correspondence.
Bawlf, Nov. 26.—Surface indications seem to show that Bawlf is over just another group of the same big gas fields which underlie Medicine Hat. Bawlf is in line with Bawlf and gas wells in the north country. The company has been formed to drill a well 1000 or 1500 feet, or as deep as required to strike the gas tank. The gas, expert is reported to have said that surface indications are better than they were in Medicine Hat.

On the farm of P. Krigen, seven miles north is a 400 feet well with a strong flow of gas which can't be held down by a hand placed upon the top of the casing. When drilling the well, the gas blew the water up to the top of the pipe and the water up to the top of the casing was driven down into the gas pocket. When the gas blew the water up to the top of the casing was driven down into the gas pocket.

Recently a gas expert was here

load. The company appreciate the quick work of the C.P.R. in installing a spur from the railway to the Bawlf at the mine.
More Mines Will Follow.
Another coal mine will, according to reports, be opened in the spring and development work pushed to the summer in preparation for next year's market. With the ever increasing demand for coal in the growing towns and thickening settlements of the prairie a good market is assured for fuel.

To Organize Bawlf Brick Co.
Brick clay is another natural product found in a 17-foot layer and close to the track. A good supply of fire clay is also found. It is very suitable for manufacturing fire bricks. A joint stock company is expected to be formed to develop this industry, with a plant for the manufacture of cheap fuel in coal or possibly gas, together with a growing market all along the line such a business

stone pump. But it present the only reported source of bricks, though it is intended to use the engine also in pumping water from the tanks on a fire. But this is not done yet.

A Musical Note.
The public hall is owned by a stock company composed of the people of the town and district and used as an amusement hall for the district.

The Bawlf Club, the local weekly newspaper, is edited by L. A. Bawlf, who has a broad-minded outlook on the future of the town and district. The club is one of the unpaid editors who contribute occasional articles to the paper. Editor Bawlf has also been the musical lion. He is leader of the band orchestra, of four instruments, and of the Bawlf Brass Band of fifteen instruments.

Bawlf citizens worship at three churches, the pulpits of which are filled by Rev. R. K. Klyne, Norwegian Lutheran; Rev. C. H. Dutton, Methodist, and H. F. Elliot, Presbyterian.

The Bawlf Public Hospital is under government control and has accommodation for 18 patients, who are well cared for by four nurses and a doctor.

A Modern Farm House.
Frank Connolly, formerly of Montreal, has a ranch about twelve miles south of Bawlf. On this ranch is a fine brick mansion lighted by electricity and with waterworks and sewerage system and all modern conveniences as in a city. Horses and sheep are his specialty and he has a "ranch" that pays.

Nearly all the settlers in the Bawlf district have secured their patents. Wild land is sold at from \$10 to \$15 per acre and improved farms at from \$15 to \$25 per acre.

A Cash Produce Market.
The Alberta Produce Co. started business at Bawlf on May 1, 1910, and business has grown quite satisfactory to the benefit of both the company and the farmers. They pay cash for goods in farmers' own long distances to trade at Bawlf. They have exported two carloads of butter, besides local shipments and have handled an average of 50 cases of canned eggs per week. Poultry shipments have begun. They expect to handle potatoes in the spring, and they also deal in hides and fur. Grain is shipped from a flat warehouse, while hay is brought in car lots from the farmers and 25 tons per week are exported lately. The cattle and sheep are a valuable asset to the town, and they are expected to be a big attraction to market their produce at Bawlf.

\$10,000 Renter Money.
J. R. Hanson has rented the Bawlf creamery from an area covering 25 acres for five years. He has been carrying out three routes this year, but expects to carry out five in 1911. While in 1909 the farmers' haulage was \$100,000, the output of 1910 increased about 7,000 lbs. over the output of 1909. The output of summer of 1910 the output of butter was 40,000 pounds, the cream for which was sold at an average of 25 cents north and south and about 15 cents west. The farmers' haulage was paid cash in full on the 15th up to the 1st of the month and with Mr. Hanson the rise and fall in

the output of thirty bushels to the acre.

During 1910 a fair amount of breaking was done and it has been estimated that the amount broken averaged nearly as much as the average in crop. One section and ten steam plowing outfits besides a goodly number of annual outfits were busy breaking in the district during the last season.

The grain crop was divided about half oats, half wheat with a little flax, and one dealer estimated the total as over 300,000 bushels. This season treated the farmers and showed which ones cultivated their farms the best, for good cultivation is worth the season.

Both the cases came round the chain of the province of Alberta. C.P.R. ships granted to the railway company by the Parliament of Canada in 1911, are now taxable, the province's contention being that the tax should be levied on the value of the land when the lands were granted, not on the date of the survey of the land, and not from the date of the securing of patent to the lands by the railway company.

The province's suit includes a claim for all arrears in taxes as well.

METHODIST CHURCH, BAWLF.

While and specially so in 1910, the church year was a very successful one.

Why Not Pick Beef at Bawlf?
The Bawlf Public School is a very worthy of the earnest attention of the farmers of the district. These days about two carloads of beef per week are being shipped away to South Alberta and the Bawlf district. There is a tradition of cattle shipping at Bawlf, where the cattle are bought by the Ontario farmers and sold during the winter. Why is that? Would it pay a Bawlf farmer to keep both cattle and sheep and ship the finished stock to the spring?

Condon Hall and Tuckey recently shipped 25 cars of cattle purchased from the ranchers and farmers of the district.

C.P.R. TAXATION CASE CONCLUDED

PRIVY COUNCIL RESERVES DECISION IN MAIN CASE INVOLVING MANY MILLIONS.

A challenge rendered yesterday by Mr. W. C. Wood, ex-attorney general, from Sydney B. Woods, ex-deputy attorney general for the province, who was retained by the government to plead the case of the province against the C.P.R. before the privy council in London, states that the argument in both cases has been submitted, and that the privy council has rendered an adverse decision in the minor case, that in which three million dollars was involved, and reserved judgment in the main case, involving many million dollars, variously estimated between twenty and thirty millions.

The reserved judgment in the case is held to indicate that the province's claim is being very seriously considered by the court and officials of the departments of the government. The reserved judgment is held to indicate that the province's claim is being very seriously considered by the court and officials of the departments of the government.

Both the cases came round the chain of the province of Alberta. C.P.R. ships granted to the railway company by the Parliament of Canada in 1911, are now taxable, the province's contention being that the tax should be levied on the value of the land when the lands were granted, not on the date of the survey of the land, and not from the date of the securing of patent to the lands by the railway company.

The province's suit includes a claim for all arrears in taxes as well.

LYDD GEORGE IS STORM CENTRE

Behind the Scene of Serious Rioting Between Two Great Factions—Chauvinism of the Excluded and the Loyalists With Victor.

Canadian Associated Press.
London, Nov. 26.—Liberals and Tories both speak with confidence about saving a victory, but it is doubtful whether each really feel it. Recollections of the archiepiscopal and even the vicarage in London have not lessened the eager partisan howl for the prospects were. The Tories a short time ago only hope to reduce the Liberal majority but the action of the House of Lords in passing the reform resolutions has materially affected their position, they believe. Whether it is so, it is impossible to say. There is a multitude of Londoners who shift their quarters frequently that the difficulty of tracing removals will be enormous. On the whole this is more disadvantageous to the Liberals than to the Tories.

Privy Council Meets Today.
The date of disposition will be determined at a meeting of the Privy Council at Marlborough House at half-past three on Monday afternoon, of the lifetime of the hour probably precedes any vote reaching the returning officer on the same evening.

London, Nov. 26.—Lloyd George is not at all sure of his position and he is predicting a gain of from twenty to thirty seats. The Tories a short time ago only hope to reduce the Liberal majority but the action of the House of Lords in passing the reform resolutions has materially affected their position, they believe. Whether it is so, it is impossible to say. There is a multitude of Londoners who shift their quarters frequently that the difficulty of tracing removals will be enormous. On the whole this is more disadvantageous to the Liberals than to the Tories.

BAWLIF BRASS BAND.

from Medicine Hat and an outflow of water was made to collect some of the gas in a barrel. Water was pumped through a hole into the barrel. The barrel and a small pipe was attached to the upper part of the barrel where the gas was collected. With the gas turned on, the water was struck and applied to the gas pipe. The gas turned on, the water was struck and applied to the gas pipe. The gas turned on, the water was struck and applied to the gas pipe.

But Bawlf has something more solid than gas. It has coal. The Bawlf Collieries, Ltd. have a mine two and a half miles north west of the town, and are now employing about 50 men, and expect, upon completion of the C.P.R. spur to the mine, to have a force of 300 or 400 men. The coal is semi-bituminous, suitable

for domestic use. By New Year they expect to have an output of 500 tons per day, while in three years they hope to reach their full capacity of 2,000 tons per day. This will mean work for many men and much business for the merchants of Bawlf.

Modern Mining Equipment.
The complete equipment of machinery and their cost about \$20,000. The company control the mining rights for 5,000 acres, estimated at approximately 225,000,000 tons of coal in the two mines. They started operating in September, 1910, and by November 1st the output was 100 tons per day. On the property is an artesian well from which are bubbles out when lighted, a burst for an hour. In 15 seconds the coal is hoisted 120 feet from the bottom to the ground level, then up 25 feet to the top of the stumps where the shaft is dumped for another

the rural lines in the farmers' homes out as far as fifteen miles! The telephone central is located at the post office. There is a daily mail and a nice output of 274 boxes. Mail is sorted after the evening mail train comes. A charge of ten cents per book is made.

Water Tanks for Cattle.
Bawlf is still a village and the present council are Thomas Thrack (chairman), R. T. Westberg (secretary-treasurer), and O. Molestad. They will incorporate as a town as soon as there is sufficient population. For fire protection there are underground cisterns on Main street. There are filled with gasoline en-

the price of the marketed butter. At an average price of 20c per lb. the output for these seven months would be \$3,000. But in 1911 it is expected that the output will total \$10,000 or more. Thus more cash for the Bawlf home business men.

Much Export Freight.
The C.P.R. station and yards are a busy place. There is only one agent, but the fast increasing business will necessitate an assistant. The export freight consists of coal, wheat, oats, hay, hides, cattle, pigs, poultry, butter and potatoes. And for all this the cash business results to the town.

Ellis Mayne, who lived in Edmonton in 1887 and who is well known to visitors to the town, has written that he thinks this a great district, that the past year he visited it and he had 42 bushels wheat and 100 bushels oats to the acre. He reports the general yield in the district not quite so high this year but some cases are

Nevada Pioneer Pass Away.
Carson, Nev., Nov. 26.—B. M. Yerkes, one of the last of the Nevada pioneers, died here last night. He was 82 years old.

Indications of Revolt in Turkey.
Constantinople, Nov. 26.—What may prove a serious revolution has broken out. Yes, men Nabli Pasha's command of the five battalions of Turkish troops, has defied the Turkish government. The governor has demanded that ten battalions of troops be hurried to Yildirim, to put down the revolt, and to arrest the situation as serious.
